

TP

Overview

The new TPD7 heat press by Secabo is ideal for professional and accurate processing of large-scale and extensive transfers in large editions and supports all commonly used transfer methods. The pressure produced by this double plate heat press is achieved through compressed air, which means significantly easier working and consistent, reproducible results. With a size 40 x 50 cm each, the two work plates offer a particularly generous working area for comfortable positioning of transfer objects. Unlike its predecessor, the TPD7's base plates are provided in portrait format, further simplifying precise positioning of the objects to be transferred. The comfortable work surface on each exposed base plate also help increase the quality and precision of transfers. The horizontally movable heating plate head can be smoothly aligned over the respective work plate and the vertically impinging pressure allows for a flawless transfer of various materials without misalignments or similar issues. Quick change systems and replacable plates (only with the quick changer) for the new TPD7 are sold separately.

Features

Digital controller

Time and temperature are set within one digital controller.

Variable working pressure

the pressure can easily be adjusted - depending on the technology and object

Exchangeable base plates

exchangeable base plates now available in combination with the quick change system

Working safely

The safety and quality of the machines is permanently controlled by German safety standards

Exact temperature distribution

The high-quality heat plate ensures an exact temperature distribution over the whole heating plate

Low hysteresis

The temperature controllers reduce temperature fluctuations to a minimum

Two work plates

with the 2 base plates, high production volumes can easily be achieved

Opens automatically

This heat press opens automatically after the adjusted time

Technical Data

dimensions	100cm x 58cm x 75cm
pressure setting	setting of pneumatic pressure
net weight	98 kg
working area	2 x 40cm x 50cm
scope of delivery	heat press, power cord, compressor valve, manual
max. working pressure	350 g/cm ²
max temperature	225 °C
maximum time preset	999 s
power supply	AC 230V / 50Hz - 60Hz, 1.8kW
environment	+5°C - +35°C / 30% - 70% humidity
Brand	Secabo
